YEARLY MEETING OF PRIENDS. The yearly meeting of Friends in New England was last week in session at Newport R. I. Of the two great divisions of the society into orthodox and Hicksites, the New England friends have always been classed with the former. Within a few years, how-ESSENTIAL OILS.—Oil Lemon, Bergamot, ever, there has been a new division, and Citronelle, Rose, Vanilla, Rhodium, Cum- some who followed John Wilbur in his disatisfaction with the emicent English friend, monds, Rosemany, Carraway, Anisced, Cassic, Joseph J. Gurney, at the time of the latter's visit to this country, have seceded from the larger body, who retain possession of the records and property of the society. A cor-

respondent of the Providence Journal writing from Newport, says: "The preachers here from abroad are Priscilla Greene and Mary Nicholson, from England; Thomas Jay and Only Thompson, from Indiana, and James Borden and Mary Ann Sands from the State of New York. Priscilla Greene and Mary Nicholson came alone to this country on a visit nearly two years ago and will shortly return. During their stay they have visited all parts of the country unattended, have been present at all the yearly meetings, north and south, east and west, and have passed from meeting to meeting without expense to themselves. This is one of the peculiar customs of the society. Their Ministers, furnished with a certificate from their own meeting, can pass through a foreign country and receive all the attention they PURIFIED MUTTON SUET; Donovan's would from friends at home; those who syrup of Bark; Entwisle's Concentrated entertain them paying their expenses to the place they are next to visit, and thus they are cared for and passed on in their mission

to the people." The Friends have the same regard for the poor of their society, none of whom are allowed to become a town charge, but all are sustained and fed, as members of one great

family. The New England yearly meeting of the Society of Friends is supposed to have been established between the years 1660 and 1670, and that the records were destroyed by fire in Newport. The earliest date preserved is 1671. The yearly meetings of the society held here were the second, if not the first of the kind held in the world.
